

September 12, 2017

****3PM EST UPDATE****

IMPORTANT NOTICE REGARDING HURRICANE IRMA

Dear Shippers and Customers:

The state of Florida was battered by Hurricane Irma and without a doubt, residents and businesses will take time to recover.

All Florida terminals survived Irma with minor issues and are with electric or powered by generator.

Our plan is to be open for receiving Wednesday September 13, 2017 from 9:00am to 1:00pm . **Miami will receive all Wednesday day of service customers.** We will have a strict data entry and receiving cut-off.

As we continue to assess the availability of incoming product and communicate with our floral partners in Miami, we will provide updates and appreciate your patience and understanding. We are very thankful that our employees throughout the state are safe but most are still without power. Please check armellini.com and our social media pages for updates as well.

The California Terminal will receive tomorrow as normal. Pierson Terminal will be open for normal receiving Wednesday (Thursday day of service customers).

Please call Customer Center 888-235-4723 if you have any questions.
